Rendering of future Charles County Hospice House

Date of Posting: August 18, 2010
Date of Closing: September 18, 2010 at 3 pm

Part I – General Information about Project

1.0 Purpose

The intent of this Request for Proposal is to share construction needs for Charles County’s first hospice house with firms whom Hospice of Charles County, Inc. can look to as potential services providers for this project. As a nonprofit organization, the hope is that firms will look at this project as leaving a permanent imprint on the Charles County community for years to come and that with that thought in mind will look favorable on reduced pricing or in-kind donations to the project.

Despite any language contained herein to the contrary, this Request for Proposal does not constitute a bid and is intended solely to obtain competitive proposals from which the Hospice of Charles County, Inc. board may select the firm who can best meet the needs of this project.

2.0 Background

Our community is changing and our capability to provide support must grow to meet that challenge.

By 2030, there will be triple the number of 60-year olds in Charles County, stressing our ability to provide the kind of medical care needed.

In the next twenty-five years, Charles County residents will be confronted with 12,600 incidences of cancer with more than 4,100 deaths possible during the same time frame.

That’s just cancer, which represents only half of all terminal illness cases that Hospice of Charles County provides care for. Combined with other life-ending illnesses, the need for additional Hospice services grows every day. Unless there are dramatic medical breakthroughs, it is likely that Hospice of Charles County will serve more than 500 patients a year as early as next decade.

This growing need to complete the continuum of care in Charles County makes the development of a Hospice House an essential addition to our medical facilities.

3.0 Compliance with Laws

The successful firm(s) shall comply with all applicable federal, state, and local statutes, rules, and regulations.
